
Capacitor MKPA-C same type offered to B&W Martin Audio LG Wharfedale

CAPACITOR MKPA-C

We have a professional R & D team and have more than ten years of R & D experience in the capacitor component industry. We can design specifications according to the needs of customer service and provide capacitor usage solutions.

Best for tweeter part of crossover

The tweeter is bright and delicate and has an extension.

Pure tone, strong sound.

Elegant and simple appearance

Work Voltage	100V, 250V, 400V, 630V
Voltage proof	1.6UR (2S)
Capacitance Range	0.01~150 μ F
Capacitance Tolerance	$\pm 1\%$ 、 $\pm 3\%$ 、 $\pm 5\%$
Dissipation Factor	$\leq 0.07\%$ (1KHz)
Operating Temperature	-40 $^{\circ}$ C~ +85 $^{\circ}$ C
Insulation Resistance	>30000M Ω (C<0.33 μ F) >10000M Ω (C>0.33 μ F)

PRODUCT APPLICATION

Products are widely used, pictures are for reference only

Acoustics Facilities

Fan lamp

WHY CHOSSE BEVENBI

Safety Quality Certification

Passed ISO9001: 2015 quality management system. We have got 7 patent certificates in the design and manufacturing of capacitor. We manufacture strictly complying with ICE 60384, regulation of ROHS and REACH.

Production team

We are a manufacturer and have our own production team to control the material and quality of the products. Guarantee the lowest price, best quality and shorter shipping time. Products with quality problems within 1 years can be replaced free of charge. We have cut-edge manufacturing and testing machine like Agilent 4284A Precision LCR Meter

Strong R & D team

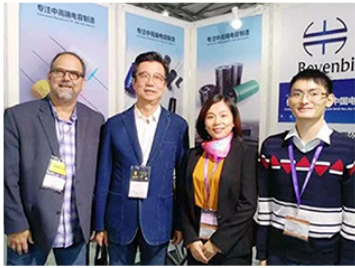

We have a professional R & D team and have more than ten years of R & D experience in the capacitor component industry. We can design specifications according to the needs of customer service and provide capacitor usage solutions.

Strong production support capability

Has a large number of international advanced production equipment, first-class production materials. The plant area is 2500 square meters, and the annual production capacity of 100000000pcs has a large inventory and provides 24-hour after-sales service.

Would you mind sharing how long have you been wholesaling capacitors?

昨天 下午11:46

We tested Mkp-C and electrolytic capacitors on amplifiers built by us and made them work at their 630 V / 400 V voltage limit and we didn't have any problems
The results were very stable and did not deteriorate absolutely the functionality of the amplifier
Same thing we did with electrolytics, and here too the result was very good.
Another test we did was to directly compare the BEVENBI MKP-C with the Mundorf and the result was very very good
MUNDORF in Italy is the undisputed leader
Now that we will be offering silver foils, we hope to attract many customers

Dear Henry,
Many thanks for your comments and trust.
We will try our best to support all your needs.

The engineer said that the effect was very good, the workmanship was excellent, and the quality was very good. I will continue to patronize next time.

数量: 10000 MKTA-E 1.2J100V 9*25

★★★★★

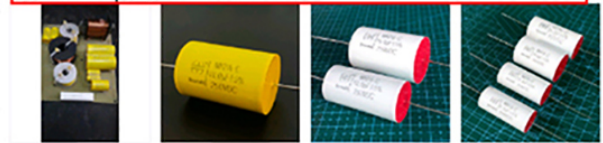

The workmanship is excellent and the quality is very good, I will continue to patronize next time.

★★★★★

Always use this capacitor, good quality, the key is cheap.
