

ASH-4000 is a 400W Sub-woofer Plate Amplifier

The Peerless Audio ASH-4000 Sub-woofer. Amplifier delivers the efficiency of a Class D design without compromising audio quality and reliability.

- * High current power supply design (with low NLC toroidal transformer).
- * Low frequency parametric EQ allows you to boost or cut to custom-tailor sound.
- * Advanced soft clip circuitry improves headroom and protects woofers.
- * Optimized Thermal Circuit protects amplifier from potential heat damage
- * Built like a tank with robust heat sinks which dissipate and control heat for extreme reliability
- * THO under 1% at RMS
- * Suitable for 12", 15" sub-woofer

Specification:

MODEL	ASH-4000
Description/Format	Active Dynamic Drive 18subwoofer system
Frequency Response	20-120Hz (±3dB)
Amplifier Power Output	400W
Power Supply	220v/50 -60Hz
Crossover Range	40-150Hz
Technology	Class D
Input impedance	Line in 10ohms, LFE: 5K ohms
S/N rate	75dB
Avg. Max Output @1m	110 dB
Features	Phase inversion Auto Sense
Product Dimensions(mm)	230 x 300
Product Gross Weight	5 kg
Packaging Dimension(mm)	395x325x 200
Colour & Material	Matte Black & Aluminium
